

Arcadia

Nove e mezza

Collezione per camerette

Una collezione dallo stile classico con cui arredare ogni area della casa – dal soggiorno alla camera da letto, fino alla cameretta. Con linee ispirate alla tradizione e finiture dai colori delicati, mobili e complementi richiamano suggestioni romantiche che rendono speciale la quotidianità.

A classic-style collection to furnish every area of the home – from the living room to the master bedroom, and even the kids' bedroom. Featuring designs inspired by tradition and soft-coloured finishes, the furniture and accessories evoke romantic suggestions that make everyday life feel special.

Compositions index

Una serie di cataloghi ispirati ai diversi momenti di una giornata in famiglia. *Nove e mezza* prende il nome dall'orario della nanna per raccontare il mondo delle camerette, con tante proposte per creare lo spazio ideale dove bambini e bambine possano trascorrere le loro giornate – giocando, sognando e crescendo.

A series of catalogues inspired by different moments of day-to-day family life. *Nove e mezza* is named after bedtime and explores the world of kids' bedrooms, offering a variety of ideas to create the perfect space where boys and girls can spend their days – playing, dreaming and growing.

Camerette.
Una collezione
di elementi
dallo stile classico
per arredare
la cameretta.

Kids' bedrooms.

A collection of classic-style elements
to furnish kids' bedrooms.

Rispetto dell'ambiente

Respect for the environment

Economia circolare

Produciamo strutture e ante in nobilitato costituite da pannelli ecologici provenienti da fornitori certificati che utilizzano legno pre e post-consumo a cui viene data una seconda vita in virtù di un'economia circolare che si autoalimenta, senza andare a intaccare il nostro patrimonio forestale.

Circular economy

We produce melamine-faced structures and doors consisting of ecological panels produced by certified suppliers who use pre- and post-consumer wood, which is given a second life thanks to a self-perpetuating circular economy, without impacting our existing forests.

Materiali eco-friendly

Utilizziamo vetro e alluminio, riciclabili all'infinito per realizzare prodotti resistenti e di grande impatto estetico, e PET per superfici sicure che non rilasciano alcuna emissione tossica durante il ciclo di produzione e utilizzo.

Eco-friendly materials

We use glass and aluminium, infinitely recyclable materials to develop resistant products with a high visual impact, and PET for safe surfaces without toxic emissions either during production or use.

UNI EN ISO 14001

Abbiamo certificato il nostro sistema di gestione ambientale in conformità agli standard alla norma UNI EN ISO 14001.

UNI EN ISO 14001

We have certified our environmental management system in compliance with standard UNI EN ISO 14001.

Diagnosi energetica

Monitoriamo costantemente i consumi totali e definiamo azioni di miglioramento sistemico per ottimizzare il nostro impatto energetico.

Energy diagnosis

We constantly monitor our total consumption and define systemic improvement actions to optimise our energy impact.

Durabilità dei prodotti

Progettiamo prodotti con una maggiore vita utile per ridurre i rifiuti e offrire alti standard qualitativi.

Product durability

We design products that last longer to reduce waste and offer high quality standards.

Attitudini green-living

Abbiamo azzerato l'utilizzo della plastica negli uffici e nella produzione installando distributori d'acqua e recuperiamo tutti i rifiuti che produciamo con la nostra attività industriale.

Green-living attitude

We have eliminated the use of plastic in our offices and production department by installing water dispensers, and recover all the waste we produce through our industrial activities.

Imballaggi

Impieghiamo solo cartoni realizzati con carta riciclata, riducendo progressivamente l'uso della plastica per sostituirla completamente con materiali green.

Packaging

We use only boxes made of recycled paper, gradually reducing the use of plastic, to be completely replaced with eco-friendly materials.

Logistica interna

Abbiamo ottimizzato tutte le movimentazioni all'interno dell'azienda per ridurre al minimo lo spreco di risorse energetiche e la produzione di CO₂.

Internal logistics

We have optimised all internal company logistics to reduce energy wastage and CO₂ production to a minimum.

Innovazione

Siamo sempre alla ricerca di materiali e materie prime uniche che ci permettono di proporre sul mercato prodotti di alta qualità dal design distintivo. Abbiamo introdotto un sistema di intelligenza artificiale che pianifica la produzione, massimizza la produttività e facilita le operazioni di logistica e smistamento riducendo, in maniera significativa, gli sprechi.

Innovation

We are always on the lookout for unique and raw materials allowing us to offer the market high-quality products with a signature design. We have introduced an artificial intelligence system that plans production, maximizes productivity and facilitates logistics and sorting operations by reducing waste significantly.

Tecnologie green

Scegliamo materiali naturali al 100% resi straordinari da processi innovativi come la tecnologia di sinterizzazione che permette di creare pietre ceramiche senza l'utilizzo di colle e sostanze inquinanti. Abbiamo adottato l'utilizzo di vernici bio certificate Greenguard che garantiscono basse emissioni e una migliore qualità dell'aria negli ambienti domestici.

Green technologies

We chose 100% natural materials with an excellent performance from innovative processes such as sintering technology which allows ceramic stone to be created without using adhesives or polluting substances. We have adopted the use of Greenguard certified organic paint that ensure low emissions and better air quality in home environments.

Ottimizzazione degli spazi

Riduciamo lo spreco dei materiali da costruzione ottimizzando gli spazi con le nostre soluzioni di arredo che si adattano alle diverse architetture grazie alla loro ampia modularità e personalizzazione.

Space optimisation

We reduce building material waste by optimising spaces with our own furniture solutions, perfectly adaptable to different architectures thanks to their extensive modularity and customisation.

Trasporto

Organizziamo le spedizioni ottimizzando gli spazi e i percorsi delle consegne per ridurre le emissioni di CO₂ sul pianeta.

Transport

We organise shipments by optimising space and delivery routes to reduce CO₂ emissions on the planet.
